## Why IACMAC for my contracting needs?

### Easy-to-use:

IACMAC Customer Support Cell provides dedicated assisted acquisition and requirements development support to each user at no-additional cost.

### Low Customer Shared Direct Cost (CSDC):

0.4% CSDC is far below the industry average. It includes end-to-end pre/post-award support (requirements, contracts, financial, surveillance). No additional cost or contract access fee.

### Rapid Award:

5.5 months average time from solicitation to award in FY24

## Best-in-Class Pre-Vetted Contractors:

## How does IACMAC make my job easier?

### Flexible Contract Structure:

- Up to 60 months of task order period of performance
- No minimum or maximum ordering value
- Incremental funding for severable orders
- Allows all contract types
- Supports classified requirements up to TS/SCI
- CONUS and/or OCONUS to include OCO

### Maximizing Value:

DoDIAC provides continuous research analysis support to all TOs and facilitates novel reuse of research findings and technical information generated to accelerate similar research across DoD.

### Ease of Collaboration:

Quickly add co-funders with in-scope research requirements to your TO.
